

Our OA Action Plan

Community (who do you represent?):

Team Members:

Why is it important for leaders to be youth?

Why is it important to make a action plan to solve problems that you care about?

What do you plan on doing/**What** is your goal? (Engineering innovation, education, policy, lifestyle,

fundraising, local action...?)

Why are you doing this?

Which *Sustainable Development Goal(s)* does your project relate to? (Circle relevant)

How will your project impact the other *Sustainable Development Goal(s)*?

Where/Who will your project make an impact (action plans can be small or large, but the larger they are the more complex they become)? (Your school, your community, region, country, the world...?)

What supplies will you need for this project? **How** will you get them? (Materials, money, locations...?)

What challenges do you think your project will encounter? **How** will you solve these problems? (Money, awareness, scale, volunteers...?)

Problem	Solution

How can you promote your project and get others involved? **How** will you share your action project story? (Posters, talks, social media...?)

Who would be best at mentoring you? **How** can they help? (Other students, teacher, school board, the mayor, NGO's, industry...?)

Mentor	How They Will Help

How will you make your project happen? (Step by step, be realistic! What needs to be done? Who will do it? When will it be done?)

GOAL:

Step	Due Date
1.	
2.	
3.	
4.	
5.	
6.	
7.	
8.	
9.	

How will you check in to keep your plan on track? (Who or what can keep you accountable?)
